

22nd April 2022

For Immediate Release

Lusaka Securities Exchange (LuSE) – MyLuSE Application

Over the past few weeks, the LuSE direct market access application known as the MyLuSE App has been offline on both web and mobile platforms. During this period, clients have not been able to access the platform and therefore have not been able to perform any transactions on the platform.

The application has been offline due to a technical fault experienced by the application developers. Our technical team have since been working to resolve the issue and ensure the application is fully restored.

The MyLuSE App and all application services such as depositing and withdrawing funds from your wallet, and placing orders in the market will be fully restored and available to the user on or before Monday, 25th April 2022.

We apologise for the inconvenience caused by this outage and wish to reassure all our stakeholders that the LuSE is committed to providing an orderly, efficient and transparent market for the trading of financial securities and to this end will continually strive to improve the quality of services provided to our stakeholders.

LuSE Secretariat
