

6th September 2022

For Immediate Release

Lusaka Securities Exchange (LuSE) – MyLuSE Application

Kindly be informed that deposit and withdrawal services on MTN mobile money are temporarily unavailable due to an update being made to the payment platform by the LuSE. The Technical teams are working on the payment channel and we will be able to notify the users of the MyLuSE application once the MTN mobile money services are restored. MyLuSE application users can still top up their wallets using Zamtel Mobile Money Payment option which is not affected by the above-mentioned update.

We apologise for the inconvenience caused and our team is working on restoring services as soon as possible.
